**COVID-19 Status Report  
Oak Park Village Board of Trustees**

To: Village President and Village Board of Trustees

Fr: Cara Pavlicek, Village Manager

The memo is a means to share a brief summary of information regarding Village of Oak Park operational activities in response to COVID-19. In most cases, formal public guidance or employee guidance has been publicly disseminated via the Village website or Village social media channels.

**New Public Health Guidance**

The Village of Oak Park Department of Public Health received notification of the following new COVID-19 cases; since last reported:

<u>Date</u>	<u># of Cases</u>	<u>Age of Cases</u>
November 5 (Thursday)	16	<20s to 90s
November 6 (Friday)	20	20s to 70s

Excluding individuals for which street addresses are not yet determined, the State of Illinois reports a total of one thousand one hundred and two (1102) total Oak Park COVID-19 cases. This total includes an additional seventeen (17) cases identified as Oak Park residents that were previously unreported dating back to March. It is important to note that as patient tracking and case follow-up occurs, individuals listed within the number of Oak Park cases reported may change depending on residency confirmation.

The Oak Park Department of Public Health is notified of positive tests as established by state and local public health protocol. Because of privacy laws, no additional information can be released about the individuals. It is noted, that privacy precludes location information regarding individuals tested to anyone other than Public Health Officials and First Responders.

The Oak Park Department of Public Health is working closely with officials from the Illinois Department of Public Health (IDPH), investigating and notifying anyone who may have had exposure to the individual who tested positive for COVID-19. Local public health officials, hospitals and first responders are following protocols consistent with the latest guidance from the Centers for Disease Control and Prevention (CDC).

**Cases related to Long-Term Care and Assisted Living Facilities**

Oak Park Public Health Director Mike Charley reported today the thirty-third and thirty-fourth death of Oak Park residents believed to be related to the COVID-19 coronavirus. The fatalities are a 94 year old male and a 90 year old female both of whom resided at Berkley Nursing Home, 6909 North Avenue. Director Charley expressed his sincere condolences to the residents’ friends and families for the loss of their loved one.

It is also noted that Oasis of Oak Park Long Term Care Facility has received five (5) cases transferred to their COVID19 unit for ongoing care. The Unit is isolated from the rest of the facility and these cases are not reflected below as they are not Oak Park facility-linked new cases.

The chart below has been updated with a new resident case at Berkley Nursing Home, 6909 North Avenue and one new staff case of Brookdale, 1111 Ontario Street. Public Health staff is continuing to work closely with the individual facilities as well as IDPH to provide up to date guidance to contain the outbreaks.

Facility Name	# of Resident Cases	# of Resident Deaths	# of Staff Cases
Belmont Village of Oak Park	2	3	9
Berkeley Nursing & Rehab Center	29	5	4
Brookdale Oak Park	8	1	15
Oak Park Arms	6	1	4
Oasis of Oak Park	23	12	8

### Village Employees Test Positive

The Village has had an employee test positive for COVID-19 during the past week. This is the twelfth Village employee and in compliance with the Village’s safety protocols and provisions already in place for COVID-19 positive diagnoses in the workforce, the employee and any other employees who have had direct close contact with this individual, was notified and placed in quarantine status. The Village has initiated cleaning protocols for any and all spaces identified as higher risk. The individual is a non-sworn employee working in the Police Department. Because of privacy laws, no additional information can be released.

### Public Health Data

Public Health Director Charley has shared the following data related to COVID-19.

“New cases per 100,000 People”. This metric looks at the number of recent COVID-19 cases per 100,000 people to describe the potential number of people who are currently ill and may be infectious. This is the number of new cases reported by IDPH in the previous week. Calculated as a rate = [Village of Oak Park case count for 7 days] / [Village population] x100,000.

- Oak Park rate: 233/100,000
- Cook County rate: 342/100,000 10/25/2020 Through 13/31/2020
- Target for County-level data: Cases for the week are fewer than 10 or the rate is fewer than 50 cases per 100,000 people
- Warning for County-level data: New case rate is greater than 50 cases per 100,000 people
