**COVID-19 Status Report  
Oak Park Village Board of Trustees**

To: Village President and Village Board of Trustees

Fr: Cara Pavlicek, Village Manager

The memo is a means to share a brief summary of information regarding Village of Oak Park operational activities in response to COVID-19. In most cases, formal public guidance or employee guidance has been publicly disseminated via the Village website or Village social media channels.

**New Public Health Guidance**

Today, the Village of Oak Park Department of Public Health received notification of the following new COVID-19 cases:

<u>Date</u>	<u># of Cases</u>	<u>Age of Cases</u>
December 31 <sup>st</sup> (Thursday)	21	<20 to 90s
January 1 <sup>st</sup> (Friday)	23	<20 to 90s

Excluding individuals for which street addresses are not yet determined, the State of Illinois reports a total of two thousand one hundred and sixty-six (2166) Oak Park COVID-19 cases. It is important to note that as patient tracking and case follow-up occurs, individuals listing the number of Oak Park cases reported may change depending on residency confirmation.

In reviewing year end numbers, in 2020, just over 4 percent of Oak Park residents contracted COVID-19 and sadly 2 percent of those cases were fatal with the cause of death of 46 residents attributed to the COVID-19.

The Oak Park Department of Public Health is notified of positive tests as established by state and local public health protocol. Because of privacy laws, no additional information can be released about the individuals. It is noted, that privacy precludes location information regarding individuals tested to anyone other than Public Health Officials and First Responders.

The Oak Park Department of Public Health is working closely with officials from the Illinois Department of Public Health (IDPH), investigating and notifying anyone who may have had exposure to the individual who tested positive for COVID-19. Local public health officials, hospitals and first responders are following protocols consistent with the latest guidance from the Centers for Disease Control and Prevention (CDC).

**Cases related to Long-Term Care and Assisted Living Facilities**

Interim Public Health Director Terry reported a positive staff case at Brookdale, 1111 Ontario Street. In addition, the Chart below has been updated to reflect eleven (11) cases among residents at Belmont Village which were previously reported to the Public Health Department, but

not included until today in the State database – the delay is being researched but may be related to lab testing reporting. The cases are considered resolved and some date back as far as October.

Facility Name	# of Resident Cases	# of Resident Deaths	# of Staff Cases
Belmont Village of Oak Park	28	6	29
Berkeley Nursing & Rehab Center	47	11	15
Brookdale Oak Park	11	2	23
Oak Park Arms	9	1	4
Oasis of Oak Park	23	12	12

### Public Health Data

Interim Public Health Director Terry has shared the following data related to COVID-19.

“New cases per 100,000 People”. This metric looks at the number of recent COVID-19 cases per 100,000 people to describe the potential number of people who are currently ill and may be infectious. This is the number of new cases reported by IDPH in the previous week. Calculated as a rate = [Village of Oak Park case count for 7 days] / [Village population] x100,000.

- Oak Park rate: 194/100,000
- Cook County rate: 284/100,000 (12/20/2020 through 12/26/2020)
- Target for County-level data: Cases for the week are fewer than 10 or the rate is fewer than 50 cases per 100,000 people

Warning for County-level data: New case rate is greater than 50 cases per 100,000 people
